

株式会社 フジテクノ

FUJI-TECHNO CORPORATION

Design, manufacture and sale of hydraulic equipment and parts

Company policy

Through the "manufacturing",
we find new value to make people happy and create a better culture.

Management policy

- We respect the value of each member and create an environment where each individual's ability can be fully utilized.
- We provide products that our customers are truly satisfied with.
- We will be the foundation of society and fulfill its duties.

Company profile

Company name	FUJI-TECHNO CORPORATION
Established	April / 10th / 1990
Address	5-5 Hikarigaoka, Hikari-City, Yamaguchi Pref., 〒743-0023 Japan
President	Kentaro Fujii
Capital	10,000,000JPY
Bank	MUFG BANK, Ltd.
TEL	+81-833-72-1900
FAX	+81-833-72-8900
URL	http://www.fuji-techno.com
E-mail	contact@fuji-techno.com
QMS	ISO 9001:2015 / JIS Q 9001:2015

Customer

OREC CO., LTD.
KYB Corporation
KYB-YS Co., Ltd
Sumitomo Heavy Industries Material Handling
Systems Co., Ltd.
CHIKUSUI CANYCOM INC.
Tsubakimoto Chain Co.
TOKU PNEUMATIC TOOL MFG. CO.,LTD.
NACHI Hydraulics Co., Ltd.
NACHI-FUJIKOSHI CORP.
Nishina Industrial Co., Ltd.
Mitsubishi Logisnext Co., Ltd.
YBM Co., Ltd.

Partner

KYB Engineering & Service Co.,Ltd
G-NET CORPORATION
TAKAMI SEIKI Co.,Ltd.
Bridgestone Diversified Products Japan Co., Ltd.

Access

We would like to realize what you wish you have.

Direct coupling pump

Valve module

Motor pump assembly

Oil cooler

▶ **We design and manufacture hydraulic equipment for your company's requirements.**

Special valve/pump, Hydraulic equipment parts, Special hydraulic piping

Slow return valve

Foot pump

Motor hydraulic unit

Engine hydraulic unit

▶ **We are working on the development of original products.**

Small general purpose valve, Foot pump, Hydraulic unit

We realize quick, reliable Q, C, D based on ISO9001.

▶ **We have been supplying various hydraulic parts to top domestic hydraulic equipment, construction, special vehicles, agricultural and industrial machinery manufactures.**

Production system in partnership with a wide range of companies, regardless of whether domestic or overseas, efforts to prevent nonconforming products, we have achieved stable quality, price and delivery time by enhancing inspection equipment and IT IoT of management system.

Main processing

Precision cutting, Cylindrical/Conical/Planar grinding, Cold/Hot forging, Crimping, Press, Laser marking, Various Heat treatment, Various Surface treatment, Baked coating

We provide new value ^{One}Stop Service by "One Stop Service".

There are people, facilities and mechanisms for quality first.

3D Measurement System

Handheld Probe Coordinate Measuring Machine

Optical Comparator

Hydraulic test stand

▶ **Quality Assurance System**

We are working daily to create a system to prevent defective products.

Main inspection equipments

Roundness Cylindricity Measuring System, Contour Measuring Instruments, Coordinate measuring machine, Optical comparator, Surface roughness tester, Internal micrometers, Various screw gauges, ect.

We will select and deliver the best hydraulic equipment.

Control valve

Pilot check valve

Hydraulic motor

Flow divider valve

▶ **We supply products and piping parts of hydraulic equipment from Japan and overseas.**

Hydraulic equipment : Pump, Cylinder, Valve, Motor

Hydraulic component : Hose, Fitting
